

What are lesson plans?

A lesson plan is a detailed step-by-step guide that outlines what students will know and do during a lesson.

Lesson plans help teachers plan how best to target the needs of each student in their classroom. They include the learning outcomes, goals, process and assessment that the teacher will use to meet student needs and to achieve an optimal learning environment.

Date & Time

Learning Outcomes

- Code101
- Code102
- Code 103

Resources

- Paper
- Pens
- Markers

Lesson Plan

Lesson 1 Topic: What is a Lesson

Goal:
What the student needs to learn

Process:
How the goal will be achieved

Assessment:
A way to measure how well the goal was reached

Notes:

How LP does it

LiteracyPlanet includes activities and resources that teachers can use to help their students achieve their learning goals. When planning a lesson, teachers can use LiteracyPlanet's strand guides to help them target the literacy needs of their students.

With LiteracyPlanet's Phonics, Sight Words, Spelling, Grammar and Comprehension guides, teachers can assign missions that will help them target student literacy needs. These guides also help teachers determine what concepts to assign to help prepare students to complete tasks in the classroom.

Year 4
