We all need water. Animals, people and plants need water to drink.				
The earth has a lot of water, but we can't drink most of it.				
Some of the earth's water is salty, frozen, or polluted.				
We need to watch how we use our water. We don't want to run out.				
In some places, people don't have clean water. They don't have running water at their house.				

<p>They have to walk a long way to get clean water.</p> <p>They have to carry bottles of water home.</p>				
<p>How can we help?</p> <p>We can watch how we use water at home.</p>				
<p>We can have shorter showers.</p> <p>A five-minute shower is good.</p>				
<p>When you brush your teeth, you can turn the water off.</p> <p>Don't let the water run while you brush your teeth. Save water!</p>				
<p>When you see rubbish outside, pick it up.</p>				
<p>Rubbish can blow into the rivers and oceans.</p> <p>It can make animals sick.</p> <p>They can get hurt from our rubbish.</p> <p>Rubbish makes the water dirty.</p>				
<p>Everyone needs water.</p>				
<p>We all need to do our part and help to save water.</p>				
<p>Total:</p>
